SUMMARY

I hold a B.Sc in Computer Science and Geology from BGU. Experience in UI testing and working in a fast-changing and developing environment as a team member and leader. I take interest in software development and I'm very eager to learn and gain experience in this field.
Independent and self-efficient learner, organized and effective.
I have also worked on projects involving image processing and ML as part of my professional role, although the specifics remain classified due to confidentiality.

PROFESSIONAL EXPERIENCE
